

**FOR TOP PERFORMANCE ON
THE ROAD OR TRACK THE
ANSWER IS...**

PRECISION ENGINE BALANCING

Check it out!

- Up to 100% longer engine life
- Improved fuel economy!
- Greater horsepower!
- Smoother operation!

**... COSTLY ENGINE
VIBRATION!**

IT'S A FACT:

7 Grams of imbalance, 4" from the centre of a rotating element, creates forces of imbalance equal to:

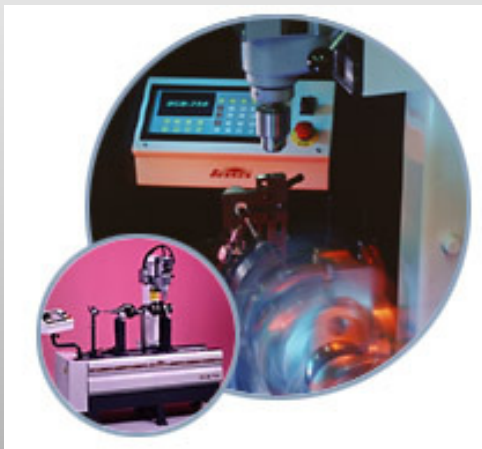

**3kg at 2,000 RPM
29kg at 6,000 RPM**

**12kg at 4,000 RPM
50kg at 8,000 RPM**

**Imbalance causes VIBRATION that costs
money in excessive engine wear.**

BALANCE NOW!

BALANCE TO PERFECTION WITH THE MOST PRECISE MACHINE AVAILABLE!

The Sunnen DCB-750 and DCB-2000 digitally controlled balancing machines are fast, accurate and easy to use... increasing your productivity and profits!

With computerised print-outs, Calibration arbour supplied and Bobweight, Heavy metal & Drill depth data all calculated for you! All that is left is **PROFIT!**
